

# 11 Week Summer Session

Starting the 4th of June, summer session is a time for great new ways of learning together! **FOUR class piano camps** will be offered **free** with private lesson tuition. We are looking forward to studying how to become well-rounded musicians! We will end our summer with an exciting performance of "Pictures at an Exhibition" at Hulbert Piano. These sessions will take place every three weeks. [see calendar] Summer is always a great time to expand or start your music training. Just check out the class offerings and fill out the attached enrollment form to get started on your musical journey.

- Session 1:**  
Theory of music assessment
- Session 2: Tips for velocity training**
- Session 3: Parade of American Composers: PICK A PICTURESQUE PIECE AND PLAY IT PLEASINGLY!**
- Session 4:**  
Studio recital in preparation for performance.

### Tuition

This year's tuition once again offers extra class time for **free** with full summer tuition. The cost is \$280 for the 11 half-hour sessions [due by June 6], or \$96 each month deposited June 1, July 10 and August 2. The cost for 45 minute lessons is \$420 in advance or \$144 a month. Hour private lessons are \$560 in advance or \$190 per month. The 4 free piano classes are not available without private lesson tuition.

### Scheduling Private Lessons

Morning, afternoon and evening times are available at both studios. Lesson times are scheduled with those who have studied with Ms. Wagner the longest having first choice. **All students should schedule 45 minute lessons to assure 11 half hours occur in the summer. (45 minutes should schedule hour lessons) Additionally, those who study all three months of the summer will keep their tuition costs lower in the fall as well as have first choice in scheduling.** There is always room! Class days and times can be found on the calendar. Most students are taking half-hour lessons, but some more advanced (those in their 4th year or more) study for 45 minutes and others sing, play piano and have private theory lessons as well. **Summer is the best time to custom design your own music education!**

## How to get to Carnegie Hall?

This summer we get tips on the answer to this age old question: "Practice, Practice, Practice!" The way to become a musician is to understand your music (**theory**), have a virtuosic technique (**velocity**), and visualize the pictures the composers were painting in their music.
